**"We have used Vintage Angus bulls for nearly 10 years and exclusively for the past five years. It is easy to see the maternal traits that we have added to our cow herd of over 700 head. Today our cows are moderately built, deep bodied and easy fleshing. The carcass traits also show up in our GeneMax Advantage scores and in the fact that we have had a repeat buyer the last seven years. Drought has forced sales earlier than usual the last couple years, but we had a consistent buyer that will give us top dollar at any time or weight because they know how the cattle will perform in the feedlot and on the rail."**

*- Jeff McKee, manager*
