

**A special "Thank You" from**

# VINTAGE ANGUS RANCH

**to a committed, long-time buyer**

WILLIAMS RANCH

**Williams Livestock is a 5th generation cattle operation in the Santa Ynez Valley that runs about 700 head of cattle on approximately 25,000 acres**

*Wayne Williams, Nancy Williams and Jerry Williams, Jr.*

**"We have been using Vintage Angus Ranch bulls for over 10 years and exclusively for 5 years. Not only does Vintage Angus have a large selection of bulls to choose from with superior genetics, but they also helped us market our cattle through "Top Dollar Angus," where our 902 lbs. steer calves topped the market. They also helped sell our 850 lbs. heifer calves privately to a local rancher who was looking for Vintage genetics. We can't thank Vintage's crew enough for helping market our cattle and for their quality bulls so we can raise superior Angus cattle, making Williams Livestock more profitable.**

**— Jerry Williams, Jr.**
